# How to get discounts from other users referrals?

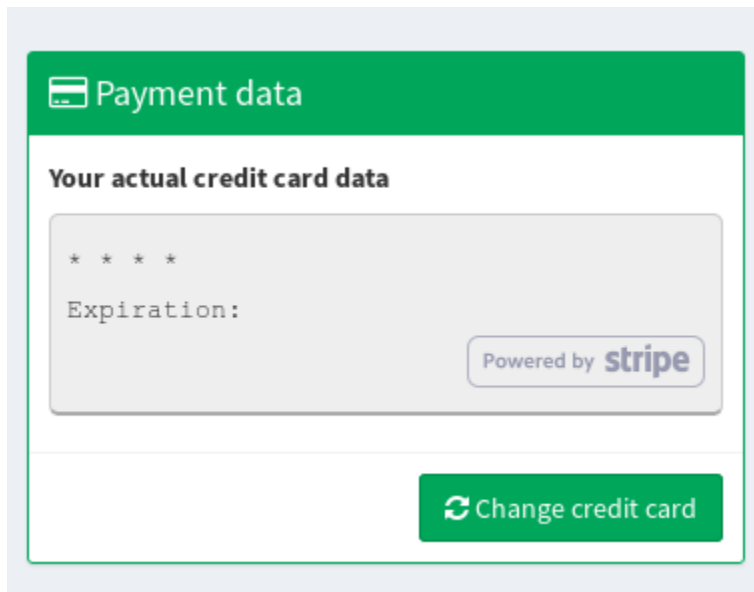

You have a unique reference code attached to your account, that you can check clicking on the 'gift' icon from the top toolbar, or from My Account->My subscription options.

Share your code among potential subscribers of XLSJuice, if they enter your code at the checkout, they will be granted with automatic discount, and you will also accumulate discount for your next renewal. Any number of users can enter YOUR code, so you can even **get a free service** if enough subscribers use your reference.

# How can I change the credit card?

You can change invoice data and credit card attached to your account at My Account->Account dashboard option. Please note these changes will be reflected for next renewal.

The screenshot displays a user interface for managing payment information. At the top, a green header bar contains a credit card icon and the text "Payment data". Below this, the section is titled "Your actual credit card data". The card details are shown in a light gray box, including masked numbers "\*\*\*\*", the label "Expiration:", and a "Powered by stripe" badge. A green button with a circular arrow icon and the text "Change credit card" is positioned at the bottom right of the section.
